

The International PhD program of the Labex EpiGenMed of the University of Montpellier is currently accepting applications for 10 open 3-year Ph.D. positions to begin 1st, October 2012.

Information about participating teams and application procedures is available at:

www.epigenmed.fr

The Labex EpiGenMed is a programme project in the Health Sciences financed by the Excellence Initiative of the French Ministry of Research.

The University of Montpellier is a major interdisciplinary campus (60,000 students) in the south of France, with state of the art facilities for biomedical research. It is one of the oldest Universities in the world, and it is the oldest active medical school in the western world.

Five major axes of research involving 49 top-level research teams are supported by this initiative:

GENOMICS & EPIGENETICS
CELL CYCLE & DEVELOPMENT
BIOPHYSICS & SYSTEMS BIOLOGY
NEUROSCIENCE & CELL SIGNALLING
MOLECULAR BASIS OF INFECTIOUS DISEASES
